

Test E2E Agent - Lead Interaction Report (08-03-2026)

Executive Summary

Overall Summary

On **08-03-2026**, lead activity was light and primarily informational. Most conversations did not progress to conversion and remained at greeting, early inquiry, or exploratory stages.

What Leads Were Asking (Bulleled Insights)

- General greetings with no clear intent ("hi", "hii").
- Requests for basic product understanding (e.g., *What is TailorTalk?*).
- Pricing and plan comparisons (Growth ?7,999/month, Pro ?14,999/month, Enterprise custom).
- Marketing performance concerns, especially **Instagram Reels reach and consistency**.
- Requests to reconnect later or off-topic discussions (e.g., car purchase), indicating low qualification.

Smart Columns Summary (Extracted Insights)

- *product_interest*: Present in limited cases, mainly related to marketing tools and Instagram growth.
- *interested_in_demo*: Not explicitly confirmed in conversations.
- *concern_primary*: Content performance and consistency were the dominant concerns where identified.
- *age*, *prior_attempts*, *booking_date*: Largely unfilled due to early-stage or dropped conversations.

Overall, Smart Column coverage is **low**, driven by shallow engagement depth rather than data quality issues. Deeper qualification questions are needed to populate these fields consistently.
